"The entire process from start to end was smooth and trouble free. Your team were always so responsive, nothing felt like it was ever a challenge, and of course the hampers themselves were stunning and we had a number of clients reach out to say so. I would absolutely recommend working with First Class Hampers to anyone."

**Melanie Pritchard,**

Group Manager, Digital Revenue,  
CANSTAR

"The process was easy, your team was extremely helpful, and we had numerous comments back from our clients saying they were the best hampers they'd ever received – everyone loved them!"

**Nicolle Glover,**

Senior Alliance Manager,  
TAL

"The whole experience from start to finish was exemplary, especially during the delivery process, where we had a few undeliverable hampers (as our staff had typically moved house but hadn't let us know). Your team were excellent, extremely helpful and very responsive. When it comes to the hamper itself, the contents were far too delicious!"

**Richard Spencer,**

Chief Customer Experience Officer,
